Rather than set prices on photos I prefer to ask for donations based on the value you place on them and your means available since that can be significantly different from one person to the next. These photos are ok (many are somewhat out of focus due to the poor quality of my gear) but they could be much better if I were able to afford better camera equipment. Therefore any and all donations will be gladly and humbly accepted so that I can provide better quality images at future events.

Donations can be sent to:

All images are 300ppi and are cropped and ready to be printed at 4x6 size. If you would like to print an image at a larger size then please contact me at the email address below and provide the file name(#) and what size you intend to print it at and I will recrop the original file to the request proportions and email it back to you for printing.

Mahalo & Happy Trails until we meet again.
